ERRATUM

Adopted: March 10, 2000

Released: March 14, 2000

By the Chief, Policy Division, Wireless Telecommunications Bureau:

On January 7, 2000, the Commission issued the *First Report and Order* in the above-referenced proceeding.¹ The map of the geographic areas for licensing, Appendix C, incorrectly indicated the license area for the Gulf of Mexico. In order to be consistent with the text² and Section 27.6(b)(2) of the Commission's implementing regulations, the map has been modified to accurately depict the lines which define the license areas:

1. the perimeter boundary is defined by the mapping data for EA176;³
2. the line of demarcation between EAG3 and EAG5 is that portion of the boundary between the Western and Central Gulf Planning Areas⁴ contained within the perimeter of EA176.

A corrected Appendix C is attached.

Kris Anne Monteith
Chief, Policy Division
Wireless Telecommunications Bureau

¹ Service Rules for the 746-764 and 776-794 MHz Bands, and Revisions to Part 27 of the Commission's Rules, WT Docket No. 99-168, *First Report and Order*, FCC 00-5 (rel. Jan. 7, 2000) (*Order*).

² *Id.*, para. 56 and n.137.

³ See *In the Matter of Amendment of the Commission's Rules to Establish Part 27, The Wireless Communications Service ("WCS")*, 12 FCC Rcd 10,785, 10,816 (para. 59) and Appendices C and D and Section 27.6 of the Commission's Rules, 47 C.F.R. § 27.6. See also <www.fcc.gov/oet/info/maps/areas/>

⁴ This line is derived from the mapping data of the Mineral Management Service (MMS) of the Department of the Interior. See <www.gomr.mms.gov/homepg/offshore/offshore.html>

Appendix C (Revised)

Geographic Areas for Licensing in the 747-762 MHz & 777-792 MHz Bands
